

## Touch Screen Controller IPX7-8 Water Immersion Test Equipment For Immersion Environment Experiments

Our Product Introduction

for more products please visit us on [raintestchambers.com](http://raintestchambers.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: YUEXIN
- Certification: ISO 20653,DIN 40050,IEC 60529
- Model Number: YX-IPX8-10A-350L
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

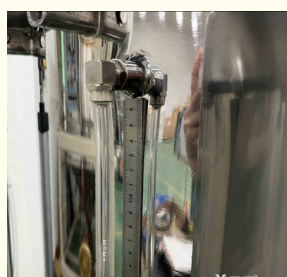

### Product Specification

- Standard: IEC 60529, GB 4208, ISO20653
- Controller: Touch Screen
- Experimental Scenarios: Immersion Environment
- Control System: PLC And Touch Screen
- Operating Scenarios: Immersion Environment
- Warranty: 1 Year
- Steel Ruler Accuracy: 1mm
- Material: Stainless Steel
- Highlight: IPX7-8 Water Immersion Test Equipment, Stainless Steel Water Immersion Test Equipment

## Product Description

### Touch Screen Controller IPX7-8 Water Immersion Test Equipment for Immersion Environment Experiments

#### Product Description:

The IPX7-8 Water Immersion Test Equipment is a cutting-edge product designed for conducting immersion tests in various environments. This immersion soaking test chamber is crafted from durable stainless steel, ensuring longevity and reliability in testing conditions. With a warranty of 1 year, you can trust in the quality and performance of this equipment for your immersion testing needs.

Designed for experimental scenarios that require testing in immersion environments, the IPX7-8 Water Immersion Test Equipment offers precise control and accurate results. The touch screen controller provides an intuitive interface for setting up and monitoring the immersion tests, making it user-friendly and efficient for operators.

One of the key features of this water immersion test equipment is its steel ruler accuracy of 1mm, allowing for precise measurements and consistent results in immersion tests. Whether you are testing the water resistance of electronic devices, evaluating the durability of coatings, or conducting research in wet environments, this equipment provides the accuracy and reliability you need.

When it comes to conducting immersion tests, having the right equipment is essential to ensure accurate and repeatable results. The IPX7-8 Water Immersion Test Equipment is designed to meet the demands of immersion testing, providing a controlled environment for subjecting materials and products to various immersion conditions.

With its stainless steel construction, this immersion soaking test chamber is built to withstand the rigors of immersion testing, offering durability and resistance to corrosion. The 1-year warranty gives you added peace of mind, knowing that your investment is protected and backed by reliable support.

Whether you are in research and development, quality control, or product testing, the IPX7-8 Water Immersion Test Equipment is a valuable tool for evaluating the water resistance and durability of your products. Its precision, reliability, and user-friendly design make it a versatile solution for a wide range of immersion testing applications.

Invest in the IPX7-8 Water Immersion Test Equipment today and take your immersion testing capabilities to the next level. With its advanced features, durable construction, and precise control, this equipment is the ideal choice for conducting immersion tests with confidence and accuracy.

#### Features:

Product Name: IPX7-8 Water Immersion Test Equipment

Warranty: 1 Year

Material: Stainless Steel

Standard: IEC 60529, GB 4208, ISO20653

Operating Scenarios: Immersion Environment

Steel Ruler Accuracy: 1mm

#### Product details:

control panel

inlet

Technical Parameters:

Product Title	IPX78 Water Immersion Test Chamber
Controller	Touch Screen
Warranty	1 Year
Material	Stainless Steel
Operating Scenarios	Immersion Environment
Control System	PLC And Touch Screen
Standard	IEC 60529, GB 4208, ISO20653
Steel Ruler Accuracy	1mm
Experimental Scenarios	Immersion Environment

Applications:

The Yuexin IPX7-8 Water Immersion Test Equipment, originating from China, is a top-of-the-line product designed for various immersion environments. With certifications such as ISO 20653, DIN 40050, and IEC 60529, this equipment guarantees high-quality performance. Whether you are in the electronics industry, automotive sector, or any other field requiring waterproof testing, the IPX8 Water Immersion Tank by Yuexin is the ideal solution. Its steel ruler accuracy of 1mm ensures precise measurements, meeting the standards of IEC 60529, GB 4208, and ISO20653.

This product is perfect for testing the waterproof capabilities of electronic devices, automotive components, and other products that require IPX8 waterproof chamber testing. The touch screen controller makes it easy to operate, while the wooden box packaging ensures safe transportation.

With a minimum order quantity of just 1 piece and a price range of USD 20,000 to 50,000 per piece, the Yuexin IPX7-8 Water Immersion Test Equipment offers great value for money. It comes with a 1-year warranty, providing you with peace of mind.

Ordering this equipment is convenient, with a delivery time of 30-45 days and payment terms of T/T accepted. The supply ability of over 100 pieces per month ensures that you can meet your testing needs efficiently.

Customization:

**Product Customization Services for IPX7-8 Water Immersion Test Equipment:**

**Brand Name:** Yuexin

**Place Of Origin:** China

**Certification:** ISO 20653, DIN 40050, IEC 60529

**Minimum Order Quantity:** 1 Pcs

**Price:** Usd+20000-50000+pcs

**Packaging Details:** Wooden Box Package

**Delivery Time:** 30-45 Days

**Payment Terms:** T/T

**Supply Ability:** 100+pcs+30

**Experimental Scenarios:** Immersion Environment

**Steel Ruler Accuracy:** 1mm

**Operating Scenarios:** Immersion Environment

**Controller:** Touch Screen

**Warranty:** 1 Year

**Keywords:** IPX8 Water Immersion Tank, Immersion test chamber, immersion soaking test chamber
