

## Stainless Steel IPX78 Water Immersion Test Chamber For Immersion Environment Experiments And Analysis

Our Product Introduction

for more products please visit us on [raintestchambers.com](http://raintestchambers.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: YUEXIN
- Certification: ISO 20653,DIN 40050,IEC 60529
- Model Number: YX-IPX8-30A-500L
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Product Title: IPX78 Water Immersion Test Chamber
- Material: Stainless Steel
- Controller: Touch Screen
- Operating Scenarios: Immersion Environment
- Steel Ruler Accuracy: 1mm
- Control System: PLC And Touch Screen
- Standard: IEC 60529, GB 4208, ISO20653
- Warranty: 1 Year
- Opening Method: Cylinder Cover
- Highlight: IPX78 Water Immersion Test Chamber ,  
Stainless Steel Water Immersion Test Chamber ,

## Product Description

### Stainless Steel IPX78 Water Immersion Test Chamber for Immersion Environment Experiments and Analysis

#### Product Description:

Introducing our cutting-edge IPX7-8 Water Immersion Test Equipment, designed to meet the highest standards in water immersion testing. This specialized equipment is ideal for various industries requiring precise testing in immersion environments.

The IPX7-8 Water Immersion Test Equipment is equipped with a steel ruler accuracy of 1mm, ensuring precise measurements and reliable results. This level of accuracy is essential for industries where precision is crucial, such as electronics, automotive, and aerospace.

Operating and experimental scenarios for the IPX7-8 Water Immersion Test Equipment are focused on immersion environments. Whether testing the resistance of electronic devices to water penetration or evaluating the durability of materials in wet conditions, this equipment is specifically designed to simulate real-world immersion scenarios accurately.

Our IPX7-8 Water Immersion Test Equipment features an IPX8 Water Immersion Tank, which provides a controlled environment for conducting immersion tests. The tank is designed to meet strict IPX8 standards, ensuring that your testing procedures adhere to industry regulations and requirements.

With a comprehensive warranty of 1 year, you can trust in the durability and reliability of our water immersion test equipment. This warranty demonstrates our commitment to quality and customer satisfaction, providing you with peace of mind when investing in our products.

The control system of the IPX7-8 Water Immersion Test Equipment is equipped with a PLC and touch screen interface, allowing for easy operation and monitoring of test parameters. The PLC system ensures precise control over testing conditions, while the touch screen interface offers user-friendly navigation and data visualization.

Features:

Product Name: IPX7-8 Water Immersion Test Equipment -----  
Material: Stainless Steel  
Warranty: 1 Year  
Standard: IEC 60529, GB 4208, ISO20653  
Steel Ruler Accuracy: 1mm  
Experimental Scenarios: Immersion Environment

Technical Parameters:

Steel Ruler Accuracy	1mm
Warranty	1 Year
Controller	Touch Screen
Standard	IEC 60529, GB 4208, ISO20653
Material	Stainless Steel
Control System	PLC And Touch Screen
Product Title	IPX78 Water Immersion Test Chamber
Experimental Scenarios	Immersion Environment
Operating Scenarios	Immersion Environment

Applications:

Yuexin IPX7-8 Water Immersion Test Equipment is a versatile and reliable product designed for various immersion test scenarios. With its durable construction and precise steel ruler accuracy of 1mm, this equipment is perfect for testing the water resistance of a wide range of products.

Originating from China, the Yuexin brand ensures high quality and performance, meeting stringent standards such as ISO 20653, DIN 40050, and IEC 60529 certifications. The minimum order quantity is 1 piece, with a price range starting from USD 20000 for individual purchases. The product is packaged in a secure wooden box for safe delivery.

The Immersion test equipment is ideal for experimental scenarios in immersion environments. Whether you need to test electronics, outdoor gear, or industrial equipment, this equipment can handle it all. The touch screen controller makes operation simple and intuitive, even in challenging immersion environments.

With a supply ability of over 100 pieces within 30 days, the Yuexin IPX7-8 Water Immersion Test Equipment offers fast delivery times to meet your testing needs. The warranty of 1 year provides peace of mind, ensuring that your investment is protected.

Ordering is convenient with payment terms accepted via T/T. The immersion test chamber is a valuable tool for companies looking to ensure the quality and durability of their products in water immersion scenarios. Trust Yuexin for reliable and accurate immersion testing equipment.

Customization:

Product Customization Services for the IPX78 Water Immersion Test Chamber -----  
Brand Name: Yuexin  
Place Of Origin: China  
Certification: ISO 20653, DIN 40050, IEC 60529  
Minimum Order Quantity: 1 Pcs

Price: Usd+20000-50000+pcs  
Packaging Details: Wooden Box Package  
Delivery Time: 30-45 Days  
Payment Terms: T/T  
Supply Ability: 100+pcs+30  
Operating Scenarios: Immersion Environment  
Steel Ruler Accuracy: 1mm  
Control System: PLC And Touch Screen  
Standard: IEC 60529, GB 4208, ISO20653
