

## 220V/50Hz Power Supply IPX7-8 Water Immersion Test Equipment For Waterproof Testing

Our Product Introduction

for more products please visit us on raintestchambers.com

### Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653,DIN 40050,IEC 60529
- Model Number: YX-IPX8-10A-1350L
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

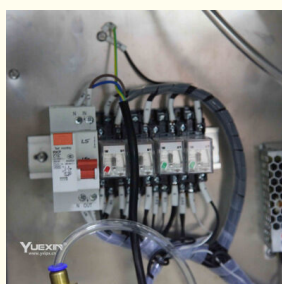

### Product Specification

- Water Supply Method: Automatic Water Supply
- Pressure Accuracy: 1 KPa
- Waterproof Level: IPX7-8
- Material: Stainless Steel
- Type: Button Type
- Water Temperature: 25
- Power Supply: 220V/50Hz
- Product Description: Water Immersion Test Chamber
- Capacity: 1350 L
- Highlight: 220V Water Immersion Test Equipment,

## Product Description

### 220V/50Hz Power Supply IPX7-8 Water Immersion Test Equipment for Waterproof Testing

#### Product Description:

The IPX7-8 Water Immersion Test Equipment is a high-quality product designed for conducting precise and reliable immersion tests on various devices and equipment. With a pressure accuracy of 1 KPa, this equipment ensures accurate and consistent test results every time.

Powered by a 220V/50Hz power supply, the IPX7-8 Water Immersion Test Equipment is suitable for use in a wide range of testing environments. Whether in a laboratory setting or a manufacturing facility, this equipment can easily be integrated into existing testing processes.

The core functionality of the IPX7-8 Water Immersion Test Equipment lies in its Water Immersion Test Chamber. This chamber is specifically designed to simulate the conditions of water immersion tests, allowing users to assess the waterproof performance of their products effectively.

Featuring a waterproof level of IPX7-8, this equipment can handle various immersion test scenarios with ease. From submersion in shallow water to complete immersion in deeper depths, the IPX7-8 Water Immersion Test Equipment provides reliable and accurate results.

The IPX7-8 Water Immersion Test Equipment is a Button Type device, making it easy to operate and control during testing procedures. The user-friendly interface ensures that users can set up and monitor tests with minimal effort, streamlining the testing process for increased efficiency.

Overall, the IPX7-8 Water Immersion Test Equipment is a versatile and reliable solution for conducting immersion tests on a wide range of products. With its precise pressure accuracy, robust design, and user-friendly interface, this equipment is a valuable addition to any testing facility.

#### Features:

Product Name: IPX7-8 Water Immersion Test Equipment

Test Depth: 10 M

Water Temperature: 25

Pressure Accuracy: 1 KPa

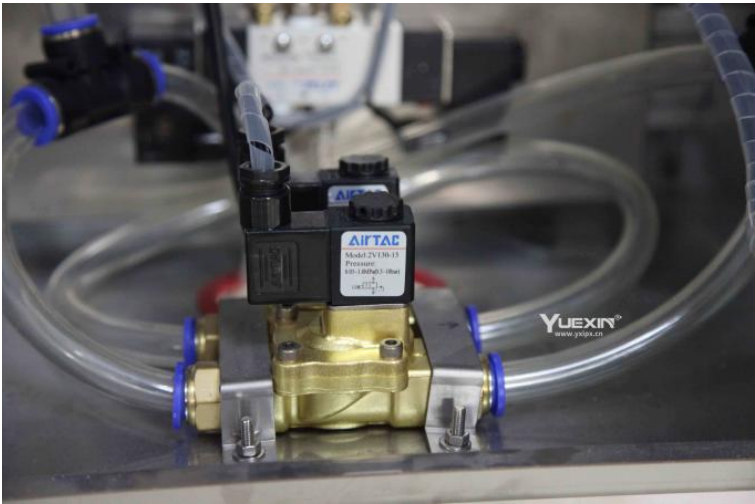

Type: Button Type

Power Supply: 220V/50Hz

#### Detail pictures:

**Technical Parameters:**

Water Temperature	25
Type	Button Type
Water Supply Method	Automatic Water Supply
Material	Stainless Steel
Pressure Accuracy	1 KPa
Product Description	Water Immersion Test Chamber
Power Supply	220V/50Hz
Waterproof Level	IPX7-8
Test Depth	10 M

**Applications:**

YUEXIN's IPX7-8 Water Immersion Test Equipment is a top-of-the-line product designed for various product testing scenarios that require precise water immersion testing. This immersion soaking test chamber is ideal for industries such as electronics, automotive, and even outdoor equipment manufacturers who need to ensure their products can withstand water exposure.

Manufactured in Guangdong, China, this Immersion test equipment is built with high-quality stainless steel material, ensuring durability and long-lasting performance. With a waterproof level of IPX7-8, this equipment can simulate extreme water immersion conditions to evaluate the product's resistance to water ingress.

Businesses looking to invest in reliable testing equipment can benefit from YUEXIN's Water Immersion Test Chamber, which is certified with ISO 20653, DIN 40050, and IEC 60529 standards. The product guarantees precise pressure accuracy of 1 KPa, making it suitable for a wide range of testing applications.

For customers interested in purchasing this product, the minimum order quantity is 1 piece, with a price range of USD 20,000 to 50,000 per piece. The packaging details include a wooden box package for secure transportation, and the delivery time is estimated at 30-45 days. Payment terms are flexible with T/T options available.

With a supply ability of over 100 pieces within 30 days, businesses can rely on YUEXIN for prompt delivery of the IPX7-8 Water Immersion Test Equipment. This IPX8 waterproof chamber is the perfect solution for conducting thorough water immersion tests to ensure product quality and reliability.

**Packing and Shipping:**

**Product Packaging:**  
The IPX7-8 Water Immersion Test Equipment is carefully packaged to ensure its safe delivery. It is securely wrapped in protective materials to prevent any damage during transit.

**Shipping:**  
Once your order is processed, the IPX7-8 Water Immersion Test Equipment will be shipped using a reliable courier service. You will receive a tracking number to monitor the delivery status of your package.

**About Us:**

**YUEXIN®** Guangzhou Yuexin Test Equipment Co., Ltd.
