

## 25 Water Temperature And 1 KPa Pressure Accuracy Water Immersion Test Equipment For Accurate Results

### Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653,DIN 40050,IEC 60529
- Model Number: YX-IPX8-10A-940L
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Test Depth: 10 M
- Product Description: Water Immersion Test Chamber
- Material: Stainless Steel
- Waterproof Level: IPX7-8
- Type: Button Type
- Water Supply Method: Automatic Water Supply
- Water Temperature: 25
- Power Supply: 220V/50Hz
- Capacity: 940L
- Highlight: **Accurate Results Water Immersion Test Equipment**  
**, Waterproof Water Immersion Test Equipment,**  
**1 KPa Water Immersion Test Equipment**

## Product Description

### 25 Water Temperature and 1 KPa Pressure Accuracy Water immersion test equipment for accurate results

#### Product Description:

The IPX7-8 Water Immersion Test Equipment is a top-of-the-line product designed for conducting immersion soaking tests with precision and reliability. This water immersion test chamber is perfect for evaluating the waterproof capabilities of various products, ensuring they meet the required standards for protection against water ingress.

Featuring a robust construction made of high-quality stainless steel, the IPX7-8 Water Immersion Test Equipment is built to last and withstand the rigors of frequent testing. Its durable design ensures consistent and accurate results, making it a valuable tool for quality assurance and product development processes.

The IPX7-8 Water Immersion Test Equipment boasts a pressure accuracy of 1 KPa, providing precise control over the testing conditions to ensure accurate and repeatable results. This level of accuracy is essential for evaluating the performance of products under different water immersion scenarios, helping manufacturers validate the effectiveness of their waterproofing designs.

With a power supply of 220V/50Hz, the IPX7-8 Water Immersion Test Equipment offers reliable and efficient operation, making it suitable for use in various testing environments. Its user-friendly interface and intuitive controls make it easy to set up and conduct tests, allowing for seamless operation and quick results analysis.

The IPX7-8 Water Immersion Test Equipment is specifically designed to meet the waterproof level requirements of IPX7-8, making it ideal for testing products that need to withstand immersion in water up to a certain depth. Whether you need to evaluate the water resistance of electronic devices, outdoor equipment, or other products, this immersion test chamber is the perfect solution for your testing needs. One of the key features of the IPX7-8 Water Immersion Test Equipment is its IPX8 Water Immersion Tank, which allows for precise and controlled immersion testing. The tank is designed to simulate real-world immersion scenarios, providing manufacturers with valuable insights into how their products perform when exposed to water for extended periods.

Whether you are conducting research and development or quality control testing, the IPX7-8 Water Immersion Test Equipment offers a reliable and efficient solution for evaluating the waterproof capabilities of your products. Its durable construction, precise pressure accuracy, and user-friendly design make it a valuable asset for any testing laboratory or production facility.

Invest in the IPX7-8 Water Immersion Test Equipment today and take your immersion testing capabilities to the next level. With its advanced features and reliable performance, this immersion test chamber is sure to meet and exceed your testing requirements, helping you ensure the quality and durability of your products.

#### Features:

Product Name: IPX7-8 Water Immersion Test Equipment

Test Depth: 10 M

Water Supply Method: Automatic Water Supply

Product Description: Water Immersion Test Chamber

Pressure Accuracy: 1 KPa

Power Supply: 220V/50Hz

#### Details:

support foot

automatic exhaust valve

Technical Parameters:

Test Depth	10 M
Product Description	Water Immersion Test Chamber
Pressure Accuracy	1 KPa
Water Temperature	25
Material	Stainless Steel
Waterproof Level	IPX7-8
Type	Button Type
Water Supply Method	Automatic Water Supply
Power Supply	220V/50Hz

Applications:

YUEXIN IPX7-8 Water Immersion Test Equipment is a top-of-the-line product designed for various testing scenarios that require precise and reliable water immersion testing. With a brand name synonymous with quality and innovation, this equipment is proudly manufactured in Guangdong, China, ensuring superior craftsmanship and durability.

Carrying certifications such as ISO 20653, DIN 40050, and IEC 60529, this immersion test equipment guarantees adherence to international standards and regulations, making it a trusted choice for industries requiring precise water testing capabilities.

Whether you need to test the waterproof capabilities of electronic devices, automotive components, or any other products, the YUEXIN Water Immersion Test Equipment is the ideal solution. With a minimum order quantity of just 1 piece and a price range starting from USD 20,000 to 50,000 per piece, this equipment offers cost-effective testing solutions.

Packaged in a secure wooden box package, this equipment ensures safe delivery to your location within 30-45 days. Payment terms are flexible with T/T accepted, and the supply ability of over 100 pieces per month guarantees quick availability.

The IPX7-8 Water Immersion Test Chamber can test products at a depth of up to 10 meters, simulating real-world immersion scenarios. With an automatic water supply method and a controlled water temperature of 25 , the equipment provides accurate and consistent test conditions.

Whether you are testing consumer electronics, automotive parts, or industrial equipment, the YUEXIN IPX7-8 Water Immersion Test Equipment is the perfect choice for ensuring the waterproof integrity of your products. Invest in this reliable and efficient immersion test equipment to meet your testing needs with precision and confidence.

Packing and Shipping:

**Product Packaging:**  
The IPX7-8 Water Immersion Test Equipment is carefully packaged in a sturdy cardboard box to ensure safe transportation. The product is securely encased in foam padding to prevent any damage during transit.

**Shipping:**  
We offer fast and reliable shipping services for the IPX7-8 Water Immersion Test Equipment. Your order will be processed promptly and shipped using a trusted carrier to ensure timely delivery. We take great care in packaging the product to safeguard it from any potential shipping hazards.
