

## 100W Water Immersion Test Equipment With Precise Testing And ≥30 Minute Test Time

Our Product Introduction

for more products please visit us on [rainestchambers.com](http://rainestchambers.com)

### Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653,DIN 40050,IEC 60529
- Model Number: YX-IPX8-30A-940L
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Test Time: ≥30 Minutes
- Product Description: Water Immersion Test Chamber
- Waterproof Level: IPX7-8
- Type: Button Type
- Capacity: 940L
- Pressure Range: 0-300 KPa
- Power: 100W
- Test Depth: 30m
- Glass Material: Toughened Glass
- Highlight: Precise Water Immersion Test Equipment,  
100W Water Immersion Test Equipment,  
30 Minute Water Immersion Test Equipment

## Product Description

### 100W Water Immersion Test Equipment with Precise Testing and $\geq 30$ Minute Test Time

#### Product Description:

The IPX7-8 Water Immersion Test Equipment is a cutting-edge product designed to meet the needs of various industries requiring precise and reliable immersion testing. With a power rating of 100W, this immersion soaking test chamber is equipped to handle rigorous testing procedures with ease.

The main focus of this product is to provide a controlled environment for conducting immersion tests on a wide range of products. The Water Immersion Test Chamber is capable of simulating water immersion scenarios with pressure ranging from 0 to 300 KPa, ensuring thorough testing under various conditions.

Constructed with toughened glass material, this immersion test equipment offers durability and transparency, allowing for easy monitoring of the testing process. The use of toughened glass enhances the safety and reliability of the chamber, making it suitable for long-term use in demanding testing environments.

With a waterproof level of IPX7-8, this immersion test equipment provides excellent protection against water ingress, ensuring the integrity of the testing process. The high waterproof rating makes this chamber ideal for conducting immersion tests on products that require stringent water resistance validation.

Overall, the IPX7-8 Water Immersion Test Equipment is a versatile and dependable solution for conducting immersion tests with precision and efficiency. Whether you are testing electronic devices, automotive components, or other products that require water immersion testing, this chamber is designed to meet your requirements with high performance and reliability.

#### Features:

Product Name: IPX7-8 Water Immersion Test Equipment  
Glass Material: Toughened Glass  
Opening method: Cylinder Cover  
Test Time: ≥30 Minutes  
Product Description: Water Immersion Test Chamber  
Type: Button Type

**Technical Parameters:**

Test Time	≥30 Minutes
Test Depth	30m
Product Description	Water Immersion Test Chamber
Type	Button Type
Glass Material	Toughened Glass
Waterproof Level	IPX7-8
Power	100W
Opening method	Cylinder Cover
Pressure Range	0-300 KPa

**Applications:**

YUEXIN IPX7-8 Water Immersion Test Equipment is a top-of-the-line product designed for various product application occasions and scenarios. This immersion test equipment, originating from Guangdong, China, comes with certifications such as ISO 20653, DIN 40050, and IEC 60529, ensuring its quality and reliability.

With a minimum order quantity of 1 piece and a price range of USD 20000-50000 per piece, this immersion testing machine offers exceptional value for its performance. The packaging details include a sturdy wooden box package to ensure safe delivery to your location.

The YUEXIN Water Immersion Test Equipment boasts a delivery time of 30-45 days, with payment terms accepted via T/T. The supply ability of over 100 pieces within 30 days makes it a convenient choice for various industries requiring immersion testing solutions. Designed as a Button Type immersion test equipment, this product can withstand depths of up to 30 meters during testing. The toughened glass material used in its construction ensures durability and reliability even in demanding testing environments. Whether you are in the electronics, automotive, or any other industry requiring water immersion testing, the YUEXIN IPX7-8 Water Immersion Test Equipment is a perfect fit. Its test time of at least 30 minutes and power of 100W make it suitable for a wide range of testing scenarios.

**FAQ:**

**Q: What is the brand name of the IPX7-8 Water Immersion Test Equipment?**  
A: The brand name is YUEXIN.

**Q: Where is the IPX7-8 Water Immersion Test Equipment manufactured?**  
A: It is manufactured in Guangdong, China.

**Q: What certifications does the IPX7-8 Water Immersion Test Equipment have?**  
A: It is certified with ISO 20653, DIN 40050, and IEC 60529.

**Q: What is the minimum order quantity for the IPX7-8 Water Immersion Test Equipment?**  
A: The minimum order quantity is 1 piece.

**Q: What are the payment terms for purchasing the IPX7-8 Water Immersion Test Equipment?**  
A: The payment terms are T/T (Telegraphic Transfer).
