

Liftable IPX1-2 Waterproof Drip Testing Machine for Drip Volume 1-2 Mm/min

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Model Number: YX-IPX12AE-1600
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

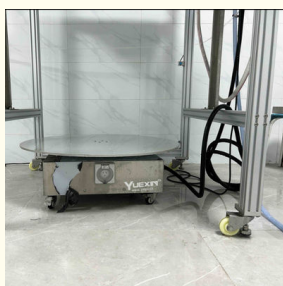

Product Specification

- Features: Waterproof Test
- Protection Level: IPX1-2
- Drip Distance: 200 Mm
- Ip Grade: IPX12
- Test Time: 10 Minutes
- Test Method: Drip Test
- Test Chamber Material: Stainless Steel
- Drip Volume: 1-2 Mm/min

Product Description

IPX1-2 Waterproof Drip Testing Machine With 1-5 Rounds Per Minute

Product Description:

Specifically engineered for drip testing, this IPX1-2 Drip Protection Test Device ensures accurate and consistent results by simulating water drips at a distance of 200 mm. The drip distance of 200 mm is a crucial parameter in determining the product's waterproof capabilities and adherence to IPX1-2 standards.

One of the key features of this IPX1-2 Water Drip Test Equipment is its focus on waterproof testing, making it an essential tool for manufacturers, quality control departments, and regulatory bodies seeking to verify the water resistance of various products. By subjecting products to controlled water drips, users can assess their performance under different levels of water exposure, replicating real-world conditions.

With an IP Grade of IPX12, this testing equipment offers a comprehensive evaluation of products' resistance to water ingress, ensuring that they meet the necessary quality and safety standards. The IPX12 rating signifies the device's ability to protect against both vertical and slanting water drips, providing a holistic assessment of the product's waterproof characteristics.

In conclusion, the IPX1-2 Water Drip Test Equipment, also known as the IPX1-2 Water Dripping Proof Tester, is a versatile and indispensable tool for conducting accurate and efficient drip tests to evaluate the waterproof capabilities of products. With its precise drip distance, focus on waterproof testing, and IPX12 rating, this device is ideal for ensuring the durability and reliability of various products in diverse industries.

Features:

Product Name: IPX1-2 Water Drip Test Equipment

Test Time: 10 Minutes

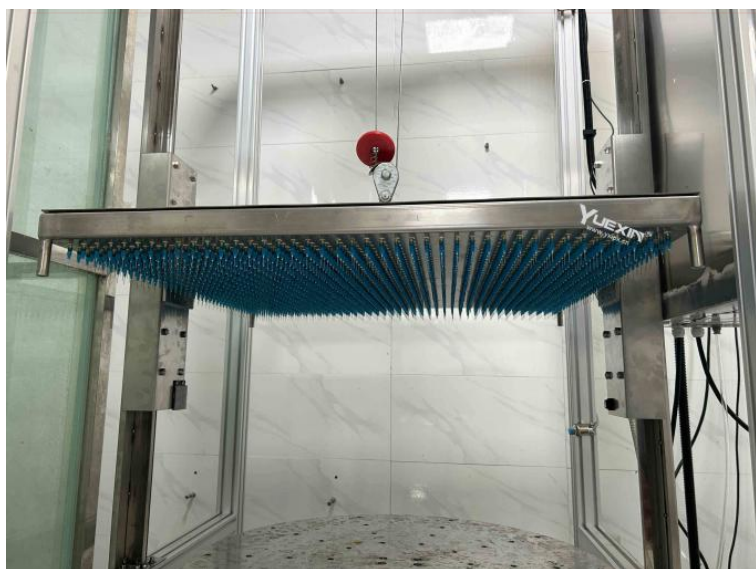

Protection Level: IPX1-2

Test Method: Drip Test

IP Grade: IPX12

Display: Touch Screen

Details:

Drip board

control panel

Technical Parameters:

Drip Distance	200 mm
Test Chamber Material	Stainless Steel
Display	Touch Screen
Drip Volume	1-2 mm/min
Test Time	10 minutes
Test Method	Drip Test
Rotating Speed	1-5 Rounds Per Minute
IP Grade	IPX12
Material	Stainless Steel
Protection Level	IPX1-2

Applications:

The YUEXIN IPX1-2 Dripping Test Apparatus is a top-of-the-line product designed for conducting water resistance assessments according to IPX1-2 standards. Manufactured in Guangdong, China, this innovative equipment is built to meet the highest quality standards and is certified with ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017 certifications. The IPX1-2 Water Resistance Assessment Tool is ideal for various product application occasions and scenarios where waterproof testing is essential. Its stainless steel test chamber material ensures durability and reliability, making it suitable for both industrial and commercial use. The protection level of IPX1-2 guarantees accurate and consistent results for drip protection testing. With a minimum order quantity of just 1 piece, the IPX1-2 Drip Protection Test Device offers flexibility for different testing requirements. The price range of USD 20000-50000+pcs reflects its high-quality construction and advanced features, including a user-friendly touch screen display. When it comes to packaging, the IPX1-2 Water Drip Test Equipment is carefully protected in a wooden box package to prevent any damage during transportation. With a delivery time of 30-45 days, customers can expect prompt fulfillment of their orders. Payment terms are convenient with T/T options available. YUEXIN's supply ability of 100+pcs+30 ensures that customers have access to this cutting-edge waterproof test equipment whenever needed. Whether for product development, quality control, or compliance testing, the IPX1-2 Dripping Test Apparatus is the perfect solution for ensuring the water resistance of various products across different industries.

Packing and Shipping:

Product Packaging and Shipping:
The IPX1-2 Water Drip Test Equipment is carefully packaged to ensure safe delivery to our customers. The package includes:
IPX1-2 Water Drip Test Equipment
Instruction Manual
Power Cord
Calibration Certificate

Our shipping process is designed to deliver your order promptly and securely. We use reliable shipping services to ensure the equipment reaches you in perfect condition. We provide tracking information so you can monitor the delivery status.
