

Stainless Steel IPX1-2 Water Drip Test Equipment IPX12 Grade Testing

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Model Number: YX-IPX12B-200
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Features: Waterproof Test
- Test Time: 10 Minutes
- Display: Touch Screen
- Protection Level: IPX1-2
- Material: Stainless Steel
- Rotating Speed: 1-5 Rounds Per Minute
- Drip Distance: 200 Mm
- Test Chamber Material: Stainless Steel

Product Description

Stainless Steel IPX1-2 Water Drip Test Equipment with 1-5 Rounds Per Minute

Product Description:

The IPX1-2 Water Dripping Proof Tester is a specialized equipment designed for conducting water drip tests according to the IPX1-2 standard. This IPX1-2 Water Resistance Assessment Tool is essential for evaluating the resistance of products to water ingress, particularly in scenarios where water dripping is a concern. With the IPX1-2 Rainfall Test Equipment, manufacturers can ensure that their products meet the necessary waterproofing standards.

Featuring a test method specifically for drip testing, this equipment provides accurate and reliable results to assess the water resistance of various products. The test chamber material of this equipment is constructed from high-quality stainless steel, ensuring durability and resistance to corrosion, thus guaranteeing long-term usability.

With a rotating speed range of 1-5 rounds per minute, the IPX1-2 Water Dripping Proof Tester offers flexibility in test conditions to simulate different scenarios and conditions. The adjustable rotating speed allows for customization based on the specific requirements of the product being tested, enabling precise testing protocols.

The standard test time of 10 minutes ensures that the products undergo a thorough evaluation under the water drip conditions. This duration is sufficient to simulate real-world scenarios and assess the product's performance accurately. The IPX1-2 Water Resistance Assessment Tool provides consistent and repeatable results, making it a reliable tool for quality control and product certification purposes. With a drip distance of 200 mm, the IPX1-2 Rainfall Test Equipment ensures that the water droplets are delivered at a specific height and distance, replicating environmental conditions effectively. This precise control over the drip distance allows for standardized testing procedures and accurate evaluation of the product's waterproofing capabilities.

In conclusion, the IPX1-2 Water Dripping Proof Tester is a crucial tool for manufacturers and quality control professionals to assess the water resistance of products accurately. Its robust construction, adjustable rotating speed, standard test time, and specific drip distance make it a versatile and reliable equipment for conducting drip tests according to the IPX1-2 standard.

Details:

Filter

Power

Features:

Product Name: IPX1-2 Water Drip Test Equipment
Drip Volume: 1-2 Mm/min
Test Time: 10 Minutes
IP Grade: IPX12
Display: Touch Screen
Drip Distance: 200 Mm

Technical Parameters:

Protection Level	IPX1-2
Test Chamber Material	Stainless Steel
Test Method	Drip Test
Material	Stainless Steel
Features	Waterproof Test
Display	Touch Screen
Test Time	10 Minutes
Ip Grade	IPX12
Drip Volume	1-2 Mm/min
Drip Distance	200 Mm

Applications:

The YUEXIN IPX1-2 Water Drip Test Equipment is a versatile product suitable for a variety of product testing scenarios. With its high-quality construction and reliable performance, this equipment is ideal for testing the water resistance of various products in different environments.

One of the key product application occasions for the IPX1-2 Water Drip Test Equipment is in laboratories and testing facilities where products need to undergo IPX1 and IPX2 water drip tests. The equipment is specifically designed for conducting IPX1-2 Dripping Test Apparatus, ensuring accurate and consistent results.

Another important scenario for using this equipment is in manufacturing facilities where products require IPX1-2 Moisture Ingress Test System to assess their resistance to water ingress. The IPX1-2 Water Drip Test Equipment provides a controlled testing environment for conducting accurate assessments of product performance.

With its certification to ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017 standards, this equipment meets industry requirements for quality and reliability. The IPX1-2 Water Drip Test Equipment is manufactured in Guangdong, China, ensuring high-quality production standards.

Customers can benefit from the flexibility offered by the IPX1-2 Water Drip Test Equipment, with a minimum order quantity of 1 piece and a price range of USD 20000-50000+pcs. The equipment is packaged securely in wooden boxes for safe transportation and delivery within 30-45 days.

Payment terms for the IPX1-2 Water Drip Test Equipment include T/T, providing convenience and security for transactions. The equipment has a supply ability of 100+pcs+30, ensuring availability for customers with varying testing needs.

Featuring a drip distance of 200mm and IPX12 protection level, the IPX1-2 Water Drip Test Equipment offers a reliable and efficient testing solution. The 10-minute test time and drip test method make it easy to conduct IPX1 and IPX2 water resistance tests with precision.

Packing and Shipping:

Product: IPX1-2 Water Drip Test Equipment

Description: The IPX1-2 Water Drip Test Equipment is designed to test the protection against vertically falling water drops. It is a crucial tool for assessing the water resistance of various products.

Package Contents: - IPX1-2 Water Drip Test Equipment - User Manual - Power Adapter - Calibration Certificate

Shipping Information: - Shipping Method: Standard Shipping - Delivery Time: 5-7 business days - Shipping Cost: Calculated at checkout -

Shipping Restrictions: This product can only be shipped within the United States.
