

IPX1 IPX2 Water Drip Test Equipment Highly efficient waterproofing

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Model Number: YX-IPX12C-800
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Features: Waterproof Test
- Test Time: 10 Minutes
- Test Method: Drip Test
- Protection Level: IPX1-2
- Display: Touch Screen
- Material: Stainless Steel
- Drip Volume: 1-2 Mm/min
- Drip Distance: 200 Mm

Product Description

IPX1-2 Water Drip Test Equipment Protection Level IPX12

Product Description:

The IPX1-2 Waterproof Drip Testing Machine is a top-of-the-line equipment designed for efficiently conducting water drip tests according to IPX1 and IPX2 standards. This advanced Water Drip Environmental Chamber IPX1 IPX2 is equipped with cutting-edge technology to ensure accurate and reliable results.

The primary test method utilized by this machine is the Drip Test, a widely recognized procedure for assessing the waterproof capabilities of various devices and products. With a test time of 10 minutes, the IPX1-2 Waterproof Drip Testing Machine allows for thorough evaluation of a product's resistance to water ingress under controlled conditions.

One of the key features of this Water Drip Environmental Chamber IPX1 IPX2 is its ability to regulate the drip volume at a rate of 1-2 mm/min. This precise control over the amount of water dripping onto the test sample ensures consistent and repeatable testing outcomes, making it ideal for quality assurance purposes.

Furthermore, the IPX1-2 Waterproof Drip Testing Machine is equipped with a user-friendly touch screen display, enhancing the overall user experience and simplifying operation. The intuitive interface allows operators to easily monitor the test progress, adjust settings, and access test results with ease.

In summary, the IPX1-2 Waterproof Drip Testing Machine is a reliable and efficient solution for conducting water drip tests in compliance with IPX1 and IPX2 standards. With its Drip Test method, 10-minute test time, 1-2 mm/min drip volume control, and touch screen display, this Water Drip Environmental Chamber IPX1 IPX2 offers unparalleled performance and accuracy for evaluating the waterproof properties of various products.

Details:

Protective cover

Fixing screw

Features:

Product Name: IPX1-2 Water Drip Test Equipment
Features: Waterproof Test
Drip Volume: 1-2 mm/min
Test Method: Drip Test
Protection Level: IPX1-2
IP Grade: IPX12

Technical Parameters:

Display	Touch Screen
Test Method	Drip Test
Rotating Speed	1-5 Rounds Per Minute
Drip Volume	1-2 Mm/min
Protection Level	IPX1-2
IP Grade	IPX12
Test Time	10 Minutes
Material	Stainless Steel
Drip Distance	200 Mm
Features	Waterproof Test

Applications:

The IPX1-2 Waterproof Drip Testing Machine offered by YUEXIN is a versatile and reliable tool designed for conducting water resistance assessments in various settings. Originating from Guangdong, China, this product boasts certifications including ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017, ensuring its quality and performance standards. With a minimum order quantity of just 1 piece and a price range of USD 20000-50000+ per piece, the IPX1-2 Water Drip Test Equipment is accessible for businesses of all sizes. It comes packaged in a secure wooden box package for safe transportation and delivery, with an estimated delivery time of 30-45 days. The payment terms for this product are flexible, accepting T/T for transactions. The IPX1-2 Water Resistance Assessment Tool is constructed with high-quality stainless steel, making it durable and long-lasting. It features a drip volume of 1-2 mm/min, a drip distance of 200 mm, and a test time of 10 minutes, ensuring accurate and consistent results. Supplying 100+ pieces per month, the YUEXIN IPX1-2 Waterproof Drip Testing Machine is suitable for a wide range of product application occasions and scenarios. Industries such as electronics, automotive, lighting, and outdoor equipment can benefit from using this equipment to test the water resistance of their products. Whether evaluating the performance of outdoor lighting fixtures, electronic devices, or automotive components, the IPX1-2 Water Drip Test Equipment offers a reliable and efficient solution. Its stainless steel construction ensures durability, while the precise drip volume and distance settings allow for accurate testing in various environments.

About us:

Packing and Shipping:

Product Name: IPX1-2 Water Drip Test Equipment

Description: The IPX1-2 Water Drip Test Equipment is designed to test the degree of protection against water ingress for electrical enclosures and devices. It can simulate water dripping vertically onto the tested equipment.

Product Packaging: The IPX1-2 Water Drip Test Equipment is securely packaged in a sturdy cardboard box to ensure safe transportation and delivery.

Shipping: We provide reliable shipping services to ensure the prompt delivery of your IPX1-2 Water Drip Test Equipment. The product will be carefully packaged and shipped to your desired location.
