

Touch Screen IPX1-2 Water Dripping Test Apparatus for Customer Requirements

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Model Number: YX-IPX12C-1000
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Features: Waterproof Test
- Rotating Speed: 1-5 Rounds Per Minute
- Drip Distance: 200 Mm
- Test Chamber Material: Stainless Steel
- Test Method: Drip Test
- Test Time: 10 Minutes
- Display: Touch Screen
- Material: Stainless Steel

Product Description

Touch Screen IPX1-2 Waterproof Apparatus Drip Volume 1-2 Mm/min

Product Description:

Constructed from high-quality stainless steel, both the main body and test chamber of the IPX1-2 Water Drip Test Equipment offer durability and resistance to corrosion, ensuring long-term performance and accuracy in test results. The stainless steel material not only provides structural integrity but also maintains the integrity of the testing environment, preventing any interference that could compromise the test outcomes.

The IPX1-2 Water Drip Test Equipment is equipped with advanced features that make it an essential tool for evaluating the water dripping proof capabilities of various products. Its precise design enables controlled water flow during the test, allowing for accurate observations and measurements of the product's resistance to water ingress. The IPX1-2 Rain Drip Test Equipment ensures consistent and repeatable testing procedures, providing reliable data for product assessment and validation.

By simulating rain dripping conditions, the IPX1-2 Water Drip Test Equipment offers manufacturers and quality control professionals a comprehensive solution for determining the effectiveness of a product's waterproof design. Whether testing electronic devices, outdoor equipment, or other products requiring water resistance, this equipment delivers the necessary performance and functionality to meet testing requirements.

With its intuitive interface and user-friendly controls, the IPX1-2 Water Drip Test Equipment simplifies the testing process, allowing operators to set up tests efficiently and monitor results with ease. The equipment's robust construction and reliable performance make it a trusted choice for laboratories, production facilities, and research institutions seeking accurate and consistent waterproof testing capabilities.

Overall, the IPX1-2 Water Drip Test Equipment is a valuable tool for assessing the water dripping proof properties of products, ensuring they meet the required standards for protection against water ingress. With its durable stainless steel construction, precise testing capabilities, and user-friendly design, this equipment offers a reliable solution for conducting IPX1-2 rain drip tests with confidence and accuracy.

Features:

Product Name: IPX1-2 Water Drip Test Equipment

Drip Volume: 1-2 Mm/min

Drip Distance: 200 Mm

Protection Level: IPX1-2

Features: Waterproof Test

Display: Touch Screen

Details:

Pulley

Screw

Technical Parameters:

Rotating Speed	1-5 Rounds Per Minute
IP Grade	IPX12
Protection Level	IPX1-2
Test Time	10 Minutes
Drip Distance	200 mm
Material	Stainless Steel
Test Chamber Material	Stainless Steel
Display	Touch Screen
Features	Waterproof Test
Drip Volume	1-2 mm/min

Applications:

The YUEXIN IPX1-2 Water Dripping Proof Tester is a versatile piece of equipment ideal for various product application occasions and scenarios. With its origin in Guangdong, China, this device holds prestigious certifications such as ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017, ensuring its quality and reliability. Designed to meet the IPX1-2 protection level standards, this IPX1-2 Drip Protection Test Device is constructed from durable stainless steel, making it suitable for a wide range of testing environments. The machine operates at a drip volume of 1-2 mm/min, precisely simulating water drips to assess the product's waterproof capabilities. The touch screen display of the IPX1-2 Waterproof Drip Testing Machine provides a user-friendly interface, allowing for easy operation and monitoring of test parameters. Each unit is packaged securely in a wooden box package, ensuring safe delivery to your location. With a minimum order quantity of 1 piece and a price range of USD 20,000-50,000+ per piece, this testing equipment offers value for money. The delivery time ranges from 30 to 45 days, and payment terms are flexible with T/T as the accepted method. With a supply ability of 100+ pieces per month, this IPX1-2 Water Dripping Proof Tester is suitable for various industries and applications. Its IP grade of IPX12 makes it a reliable choice for testing products that require protection against water ingress.

Packing and Shipping:

Product Name: IPX1-2 Water Drip Test Equipment
Description: The IPX1-2 Water Drip Test Equipment is designed to test the protection against water ingress for products in accordance with IPX1 and IPX2 standards.
Package Includes: IPX1-2 Water Drip Test Equipment, User Manual, Power Cord
Shipping Method: Standard Shipping
Shipping Cost: Calculated at checkout
