

## IPX3-4 Rain Spray Test Nozzle with Flow Meter Efficient Waterproof Devices

Our Product Introduction

for more products please visit us on [raintestchambers.com](http://raintestchambers.com)

### Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AE
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Name Of Commodity: Rain Spray Test Equipment
- Ip Rating: IPX3-4
- Operation Scenarios: Rain、 Splash Water
- Function: With Flow Meter Display
- Operation: Handheld Operation
- Number Of Water Spray 121 Holes:
- Water Spray Aperture:  $\phi 0.5\text{mm}$
- Water Flow:  $10\text{L}/\text{min} \pm 5\%$
- Water Pressure Range: 50-150Kpa
- Highlight: **Efficient IPX3-4 Rain Spray Test Nozzle, Flow Meter Rain Spray Test Nozzle**

## Product Description

### IPX3 IPX4 Rain Spray Test Nozzle with Electronic Flow Meter

#### Product Description:

The IPX3-4 Rain Spray Test Equipment is an essential tool designed for conducting waterproof testing in various working scenarios such as rain and splash water. This equipment is versatile and can be used in both operation and applied scenarios involving exposure to rain and splash water.

The IPX3-4 Rain Spray Test Equipment is specifically built to meet the IPX3-4 standard, making it a reliable choice for assessing the water resistance of products. This test equipment is commonly known as IPX3-4 Waterproof Test Equipment, IPX3-4 Rainproof Test Machine, or IPX3-4 Drip Box Test Instrument.

With its precise design and accurate testing capabilities, the Rain Spray Test Equipment ensures that products can withstand water exposure in real-world conditions. Whether testing electronic devices, outdoor equipment, or automotive components, this equipment provides consistent and reliable results.

Featuring a user-friendly interface and intuitive controls, the Rain Spray Test Equipment allows for easy operation and swift testing procedures. Its durable construction and high-quality materials guarantee long-term performance and accurate results for repeated testing.

Manufactured to meet industry standards and requirements, the IPX3-4 Rain Spray Test Equipment is a valuable asset for quality control processes and product development. Its ability to simulate various water exposure scenarios makes it an indispensable tool for ensuring product durability and reliability.

Overall, the IPX3-4 Rain Spray Test Equipment is a dependable solution for businesses and industries looking to validate the waterproof capabilities of their products. With its comprehensive testing capabilities and robust design, this equipment offers precise and consistent results for a wide range of applications.

#### Features:

Product Name: IPX3-4 Rain Spray Test Equipment

Working Scenarios: Rain, Splash Water

Power Supply: 220V/50Hz

Test Method: Spray Nozzle

Controller: 7-inch PLC Touch Screen

IP Rating: IPX3-4

#### Detail photos:

Pressure gauge

Flow meter

Technical Parameters:

Name Of Commodity	Rain Spray Test Equipment
Power Supply	220V/50Hz
Working Scenarios	Rain, Splash Water
IP Code	IPX3 IPX4
Spray Method	Side Spray
Controller	7-inch PLC Touch Screen
IP Rating	IPX3-4
Test Method	Spray Nozzle
Experimental Scenarios	Rain / Splash Water
Applied Scenarios	Rain, Splash Water

Applications:

The IPX3-4 Rain Spray Test Equipment, also known as the IPX3-4 Drip Box Test Instrument, is a high-quality product manufactured by YueXin from Guangdong, China. This equipment is designed to simulate rain and splash water scenarios for testing the waterproof capabilities of various products. It comes with CE Certification, ensuring its reliability and performance. With a minimum order quantity of 1 piece and a price range of USD 20,000 to 50,000 per piece, the IPX3-4 Rain Spray Test Equipment is a cost-effective solution for businesses looking to conduct raindrop spray testing. The product is packaged in a wooden box package for safe transportation and delivery within 30-45 days.

Payment terms for the IPX3-4 Rain Spray Test Equipment are T/T, providing convenience for customers. The equipment operates at 220V/50Hz power supply and is equipped with a 7-inch PLC touch screen controller for easy operation and monitoring. One of the key features of this equipment is its IP Rating of IPX3-4, making it suitable for rain and splash water experimental scenarios. The IPX3-4 Rain Spray Test Equipment has a supply ability of 100+ pieces per month, ensuring availability for customers' testing needs. Businesses in various industries can benefit from the IPX3-4 Rain Spray Test Equipment for conducting waterproof testing on their products. Whether testing outdoor electronics, lighting fixtures, or automotive components, this equipment provides accurate and reliable results.

In conclusion, the IPX3-4 Rain Spray Test Equipment, or the IPX3-4 Drip Box Test Instrument, is a versatile and essential tool for companies looking to ensure the quality and durability of their products. Its IPX3-4 Raindrop Spray Testing Device capabilities make it a valuable asset for testing products in rain or splash water conditions.

Support and Services:

The IPX3-4 Rain Spray Test Equipment is designed to provide comprehensive testing for products intended for outdoor use. Our product technical support team is available to assist you with any questions or issues you may encounter during the setup and operation of the equipment.

Our services include troubleshooting, maintenance guidance, and expert advice to ensure that your testing processes run smoothly and efficiently. We are committed to helping you achieve accurate and reliable results with our Rain Spray Test Equipment.

FAQ:

Q: What is the brand name of the IPX3-4 Rain Spray Test Equipment?

A: The brand name is YueXin.

**Q: Where is the IPX3-4 Rain Spray Test Equipment manufactured?**

A: It is manufactured in Guangdong, China.

**Q: What certification does the IPX3-4 Rain Spray Test Equipment have?**

A: It has CE Certification.

**Q: What is the minimum order quantity for the IPX3-4 Rain Spray Test Equipment?**

A: The minimum order quantity is 1 piece.

**Q: What are the packaging details for the IPX3-4 Rain Spray Test Equipment?**

A: The equipment is packaged in a wooden box package.
