

IPX3-4 Water Spray Test Instrument Rain Splash Water Operation Scenarios

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AM-500
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Service Environment: Rain、Splash Water
- Ip Code: IPX3 IPX4
- Applied Scenarios: Rain、Splash Water
- Controller: 7-inch PLC Touch Screen
- Power Supply: 220V/50Hz
- Test Method: Spray Nozzle
- Load-bearing: 500kg
- Spraying Method: Side And Top Spray
- Water Flow: 10L/min±5%
- Highlight: **IPX3-4 Water Spray Test Instrument,
IPX3-4 Rain Splash Test Instrument,
Side Rain Spray Test Instrument**

Product Description

IPX3-4 Water Spray Test Instrument Tempered Glass Viewing Window

Product Description:

The IPX3-4 Rain Spray Test Equipment is a versatile testing instrument designed to evaluate the water resistance of products under simulated rain or splash water conditions. Also known as the IPX3-4 Water Spray Test Equipment, IPX3-4 Rain Spray Tester, or IPX3-4 Drip Box Test Instrument, this device is essential for ensuring the durability and reliability of various products exposed to water ingress. Equipped with a power supply of 220V/50Hz, this IPX3-4 test equipment is suitable for conducting tests according to IPX3 and IPX4 ratings. It allows for testing in both rain and splash water scenarios, replicating real-world conditions to assess the product's ability to withstand water exposure. The IPX3-4 Rain Spray Test Equipment is ideal for industries where products need to be protected against water intrusion, such as outdoor electronics, lighting fixtures, automotive components, and more.

When using the IPX3-4 Rain Spray Test Equipment, users can create various experimental scenarios to evaluate the product's performance under different conditions. The device enables testing in rain and splash water scenarios, providing valuable insights into the product's waterproof capabilities. By subjecting the product to controlled water spray, users can determine its resistance to moisture and ensure its longevity in wet environments.

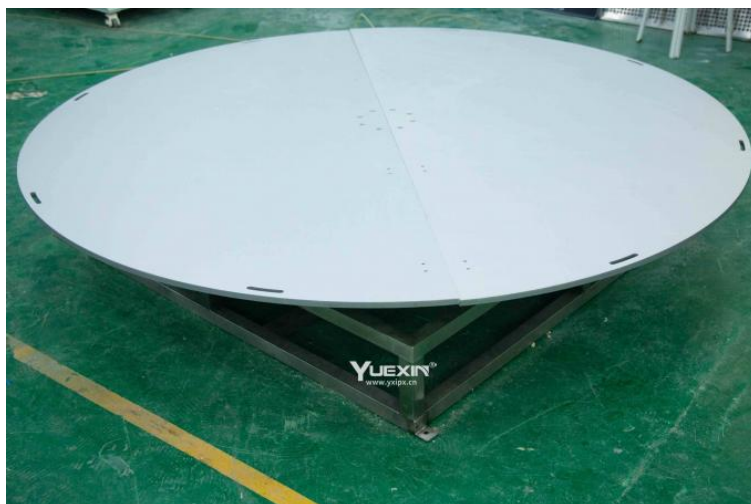

In addition to rain and splash water testing, the IPX3-4 Rain Spray Test Equipment is also suitable for other applied scenarios where water resistance is crucial. Whether testing electronic devices, outdoor equipment, or industrial machinery, this versatile instrument offers a reliable and efficient solution for assessing the product's ability to withstand water exposure.

Overall, the IPX3-4 Rain Spray Test Equipment is a valuable tool for manufacturers, quality control departments, and product development teams looking to enhance the durability and reliability of their products. With its ability to simulate rain and splash water conditions, this testing instrument provides essential data to ensure product performance in real-world environments.

Details:

power supply

turntable

Features:

Product Name: IPX3-4 Rain Spray Test Equipment
IP Rating: IPX3-4
Power Supply: 220V/50Hz
Name Of Commodity: Rain Spray Test Equipment
Experimental Scenarios: Rain / Splash Water
Test Method: Spray Nozzle

Technical Parameters:

Viewing Window	Tempered Glass
Name Of Commodity	Rain Spray Test Equipment
Controller	7-inch PLC Touch Screen
Operation Scenarios	Rain, Splash Water
Service Environment	Rain, Splash Water
Applied Scenarios	Rain, Splash Water
Experimental Scenarios	Rain / Splash Water
Ip Code	IPX3 IPX4
Spray Method	Side Spray
Working Scenarios	Rain, Splash Water

Applications:

The IPX3-4 Rain Spray Test Equipment, also known as the IPX3-4 Rainfall Simulation Tester, is a top-quality product offered by YueXin, originating from Guangdong, China. This equipment is specifically designed for testing the water resistance of products in various scenarios, making it an essential tool for industries requiring IPX3-4 certification.

The IPX3-4 Water Spray Test Equipment is ideal for conducting tests in experimental scenarios such as rain and splash water, simulating real-life conditions to ensure the durability and reliability of products. With its IPX3-4 Rainproof Test Machine capabilities, this equipment provides accurate results for assessing the ingress protection level against water.

Whether testing outdoor electronics, automotive components, or lighting fixtures, the IPX3-4 Rain Spray Test Equipment is a must-have tool. Its side spray method and spray nozzle test method offer precise and consistent testing procedures, meeting CE Certification standards and industry requirements.

When it comes to purchasing this equipment, the minimum order quantity is 1 piece, with a price range of USD 20,000 to USD 50,000 per piece. The packaging details include a wooden box package for secure transportation, ensuring the product arrives in perfect condition. With a delivery time of 30-45 days, customers can expect prompt shipment after placing their order. Payment terms are flexible, accepting T/T for convenience. The supply ability of 100+ pieces within 30 days demonstrates the manufacturer's commitment to meeting customer demands.

Support and Services:

The IPX3-4 Rain Spray Test Equipment is a reliable and efficient product designed to assess the protection of enclosures against water ingress. Our technical support team is available to provide guidance on the setup, operation, and maintenance of the equipment, ensuring optimal performance and accurate testing results.

In addition, we offer a range of services to support our customers, including calibration, repair, and training programs. Our experienced technicians can assist with troubleshooting any issues that may arise and recommend solutions to keep your equipment functioning at its best.

About US:

FAQ:

Q: What is the brand name of the Rain Spray Test Equipment?

A: The brand name of the Rain Spray Test Equipment is YueXin.

Q: Where is the Rain Spray Test Equipment manufactured?

A: The Rain Spray Test Equipment is manufactured in Guangdong, China.

Q: What certification does the Rain Spray Test Equipment have?

A: The Rain Spray Test Equipment has CE Certification.

Q: What is the minimum order quantity for the Rain Spray Test Equipment?

A: The minimum order quantity for the Rain Spray Test Equipment is 1 piece.

Q: What are the packaging details for the Rain Spray Test Equipment?

A: The Rain Spray Test Equipment is packaged in a wooden box package.
