IPX34 Rain Spray Test Equipment Rain and Splash Water Service Environment

Our Product Introduction

Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AS-01
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Operation Scenarios: Rain、Splash Water
- Spray Method: Side Spray
- Ip Rating: IPX3-4
- Name Of Commodity: Rain Spray Test Equipment
- Water Tank: 160L
- Number Of Nozzles: 1
- Type: Button Type
- Power Supply: 220V/50HZ
- Power: 1.0kw
- Highlight: **Rain Spray Test Equipment**,
  IPX34 Rain Spray Test Equipment,
  Rain Spray Test Machine

Rain and Splash Water Environment IPX3-4 Rain Spray Test Equipment

Product Description:

The IPX3-4 Rain Spray Test Equipment is a top-of-the-line product designed for testing the rainproof capabilities of various devices and equipment. It is equipped with a high-quality 7-inch PLC touch screen controller that allows for easy and intuitive operation.

With this IPX3-4 Rain Spray Test Equipment, users can simulate both rain and splash water scenarios to assess the waterproofing performance of their products. The machine is capable of testing for both IPX3 and IPX4 ratings, making it a versatile tool for a wide range of applications.

Whether you need to test the water resistance of electronics, outdoor equipment, or industrial machinery, the IPX3-4 Rain Spray Test Equipment is up to the task. It can be used in various service environments, including rain and splash water conditions, to ensure that your products meet the necessary waterproofing standards.

Key Features of the IPX3-4 Rain Spray Test Equipment:

7-inch PLC touch screen controller for easy operation

Ability to simulate rain and splash water scenarios

Testing capabilities for both IPX3 and IPX4 ratings

Suitable for a variety of service environments, including rain and splash water conditions

Overall, the IPX3-4 Rain Spray Test Equipment is a reliable and efficient solution for conducting rainproof tests. Whether you need to evaluate the waterproofing performance of consumer electronics, outdoor gear, or industrial equipment, this machine offers the functionality and versatility required for accurate and precise testing.

Invest in the IPX3-4 Rain Spray Test Equipment today and ensure that your products are built to withstand the elements!

Features:

Product Name: IPX3-4 Rain Spray Test Equipment

Applied Scenarios: Rain, Splash Water

IP Code: IPX3 IPX4

Operation Scenarios: Rain, Splash Water

Name Of Commodity: Rain Spray Test Equipment

IP Rating: IPX3-4

Details:

Filter

Circuit

Technical Parameters:

IP Rating: IPX3-4	Name Of Commodity: Rain Spray Test Equipment
Viewing Window: Tempered Glass	Power Supply: 220V/50Hz
Applied Scenarios: Rain, Splash Water	Working Scenarios: Rain, Splash Water
IP Code: IPX3, IPX4	Controller: 7-inch PLC Touch Screen
Experimental Scenarios: Rain / Splash Water	Operation Scenarios: Rain, Splash Water

Applications:

The IPX3-4 Rain Spray Test Equipment, also known as the IPX3-4 Rainproof Test Machine, is a high-quality product offered by YueXin, a renowned brand from Guangdong, China. This equipment is designed for testing the water resistance of various products, making it an essential tool in industries where products need to withstand rain and splash water scenarios.

With CE Certification, this IPX3-4 Rain Spray Tester ensures reliability and quality in its performance. It has a minimum order quantity of 1 pcs and is priced at USD 20000-50000+pcs, making it a cost-effective investment for businesses. The packaging details include a wooden box package, ensuring safe delivery to customers.

The delivery time for the IPX3-4 Raindrop Spray Testing Device is 30-45 days, and the payment terms accepted are T/T. With a supply ability of 100+pcs, businesses can rely on this equipment to meet their testing needs effectively.

Featuring a 7-inch PLC touch screen controller, the IPX3-4 Rain Spray Test Equipment offers user-friendly operation and precise control. The spray method used is side spray, ensuring thorough and accurate testing results. The power supply required is 220V/50Hz, making it suitable for various environments.

This equipment is ideal for a variety of applied scenarios, including rain and splash water testing. Its service environment is specifically tailored to simulate rain and splash water conditions accurately, making it a versatile tool for product testing.

Support and Services:

The IPX3-4 Rain Spray Test Equipment product comes with comprehensive Product Technical Support and Services to assist customers in setting up and using the equipment effectively. Our team of experts is available to provide guidance on installation, operation, and maintenance of the equipment. We offer troubleshooting assistance to resolve any issues that may arise during usage.

About us:

FAQ:

Q: What is the brand name of the Rain Spray Test Equipment?
A: The brand name of the Rain Spray Test Equipment is YueXin.
Q: Where is the Rain Spray Test Equipment manufactured?
A: The Rain Spray Test Equipment is manufactured in Guangdong, China.
Q: What certification does the Rain Spray Test Equipment have?
A: The Rain Spray Test Equipment has CE Certification.
Q: What is the minimum order quantity for the Rain Spray Test Equipment?
A: The minimum order quantity for the Rain Spray Test Equipment is 1 piece.
Q: What are the packaging details for the Rain Spray Test Equipment?
A: The Rain Spray Test Equipment is packaged in wooden box package.
