

Rain / Splash Water Experimental Scenarios IPX3 IPX4 Rainproof Test Machine

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AT-01
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Viewing Window: Tempered Glass
- Working Scenarios: Rain、 Splash Water
- Name Of Commodity: Rain Spray Test Equipment
- Power Supply: 220V/50Hz
- Service Environment: Rain、 Splash Water
- Ip Rating: IPX3-4
- Test Method: Spray Nozzle
- Operation Scenarios: Rain、 Splash Water
- Highlight: **Splash Water Rainproof Test Machine, IPX3 IPX4 Rainproof Test Machine, IPX3 Rainproof Test Machine**

Product Description

Rain / Splash Water Experimental Scenarios IPX3-4 Rainproof Test Machine

Product Description:

Specifically crafted for IPX3-4 testing, this equipment simulates rain and splash water conditions to evaluate the product's protection level against water ingress. The IPX3-4 Rain Spray Tester is equipped with a side spray method that accurately replicates the water flow and intensity experienced during rain or splash water exposure.

One of the key features of the IPX3-4 Rain Spray Test Equipment is its versatility in testing various products that need to withstand water exposure. Whether it is electronic devices, outdoor equipment, or automotive components, this testing apparatus provides a reliable and consistent method for assessing their waterproof capabilities.

The IPX3-4 Raindrop Spray Testing Device is designed to meet industry standards and regulatory requirements for testing products that are intended for outdoor or wet environments. By subjecting products to controlled water spray using spray nozzles, this equipment offers a comprehensive evaluation of their protection level against water ingress.

With the IPX3-4 Splashproof Test Apparatus, manufacturers and quality control professionals can ensure that their products meet the necessary waterproofing standards to prevent damage from exposure to rain or splash water. This testing device is essential for validating the product's performance in real-world conditions and certifying its reliability under different environmental scenarios.

Overall, the IPX3-4 Rain Spray Test Equipment is a valuable tool for industries such as electronics, automotive, and outdoor equipment manufacturing, where waterproofing is crucial for product performance and longevity. By utilizing this testing apparatus, businesses can confidently assess and improve the waterproof capabilities of their products, enhancing customer satisfaction and brand reputation.

Details:

Pressure gauge

Water pump

Features:

Product Name: IPX3-4 Rain Spray Test Equipment
Power Supply: 220V/50Hz
Spray Method: Side Spray
Working Scenarios: Rain, Splash Water
Applied Scenarios: Rain, Splash Water
IP Rating: IPX3-4

Technical Parameters:

| | |
|------------------------|---------------------------|
| Operation Scenarios | Rain, Splash Water |
| Name Of Commodity | Rain Spray Test Equipment |
| Power Supply | 220V/50Hz |
| Experimental Scenarios | Rain / Splash Water |
| Applied Scenarios | Rain, Splash Water |
| Controller | 7-inch PLC Touch Screen |
| Working Scenarios | Rain, Splash Water |
| Test Method | Spray Nozzle |
| Ip Code | IPX3 IPX4 |
| Spray Method | Side Spray |

Applications:

The IPX3-4 Rain Spray Test Equipment by YueXin is a versatile and reliable product suitable for various product application occasions and scenarios. With its robust design and features, this IPX3-4 Rainproof Test Machine is ideal for conducting rain and splash water tests in different settings.

Originating from Guangdong, China, this CE-certified equipment ensures high quality and performance for your testing needs. The minimum order quantity for this IPX3-4 Water Ingress Test System is just 1 piece, making it accessible for both small-scale and large-scale testing requirements.

Designed for durability and precision, the IPX3-4 Rain Spray Test Equipment is priced at USD 20000-50000+ per piece and comes packaged in a sturdy wooden box package for safe delivery. The delivery time for this equipment is estimated to be between 30-45 days, ensuring timely access to this essential testing tool.

When it comes to payment terms, T/T is accepted for easy transactions. With a supply ability of over 100 pieces in 30 days, you can rely on the availability of the IPX3-4 Rainproof Test Machine for your testing needs.

The experimental scenarios for this equipment include rain and splash water testing, making it suitable for a wide range of products and industries. The viewing window of tempered glass allows for easy observation during testing, ensuring accurate results.

Utilizing a side spray method and controlled by a 7-inch PLC touch screen controller, the IPX3-4 Rain Spray Test Equipment offers precision and ease of operation. Its IP rating of IPX3-4 guarantees reliable protection against water ingress, making it an essential tool for testing the water resistance of various products.

About us:

Support and Services:

The IPX3-4 Rain Spray Test Equipment is designed to test the water resistance of products according to IPX3 and IPX4 standards. Our product technical support includes detailed user manuals, troubleshooting guides, and online resources to assist customers in setting up and using the equipment effectively.

Additionally, we offer a range of services to support our customers, such as on-site installation, calibration, and maintenance. Our team of experienced technicians is available to provide training and technical assistance to ensure optimal performance and accuracy of the equipment.

FAQ:

1. What is the brand name of the Rain Spray Test Equipment?

The brand name of the Rain Spray Test Equipment is YueXin.

2. Where is the Rain Spray Test Equipment manufactured?

The Rain Spray Test Equipment is manufactured in Guangdong, China.

3. What certification does the Rain Spray Test Equipment have?

The Rain Spray Test Equipment has CE Certification.

4. What is the minimum order quantity for the Rain Spray Test Equipment?

The minimum order quantity for the Rain Spray Test Equipment is 1 piece.

5. What are the packaging details for the Rain Spray Test Equipment?

The Rain Spray Test Equipment comes in a wooden box package.
