

IPX3 IPX4 Rain Spray Test Equipment for Efficient Waterproof Performance

Our Product Introduction

for more products please visit us on raintestchambers.com

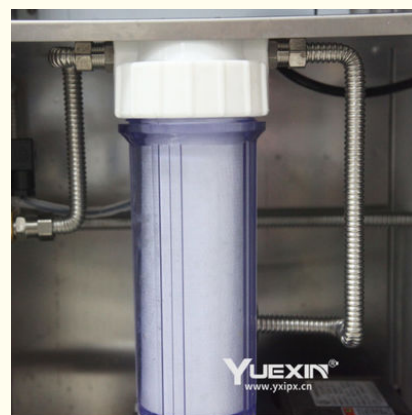

Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AS-03
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Test Method: Spray Nozzle
- Applied Scenarios: Rain、 Splash Water
- Spray Method: Side Spray
- Ip Code: IPX3 IPX4
- Power Supply: 220V/50Hz
- Experimental Scenarios: Rain / Splash Water
- Operation Scenarios: Rain、 Splash Water
- Viewing Window: Tempered Glass
- Highlight: IPX4 Rain Spray Test Equipment,
IPX3 Rain Spray Test Equipment

Product Description

IPX3-4 Rain Spray Test Equipment for Rainfall Environment

Product Description:

The IPX3-4 Rain Spray Test Equipment is a versatile testing device designed for evaluating the waterproof performance of various products under rain and splash water conditions. With its IPX3 and IPX4 rating, this equipment is suitable for testing products that need to withstand water ingress in different scenarios.

Featuring a user-friendly 7-inch PLC touch screen controller, this IPX3-4 waterproof test equipment offers easy operation and precise control during testing procedures. The touch screen interface allows for convenient settings adjustments and real-time monitoring of the testing parameters.

Whether simulating a light rain or a more intense rain shower, this IPX3-4 rain spray tester provides reliable results to assess the water resistance of products effectively. By subjecting items to controlled water spray levels, manufacturers can ensure the quality and durability of their products under varying environmental conditions.

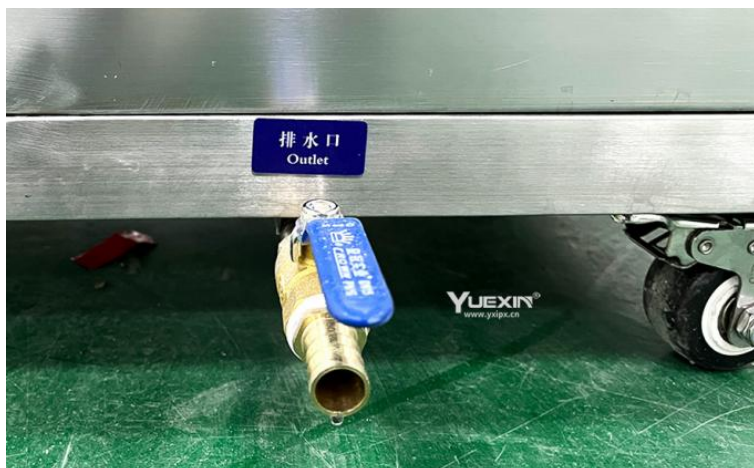

Equipped with a power supply of 220V/50Hz, this IPX3-4 raindrop spray testing device is suitable for use in different industrial settings and testing laboratories. Its robust construction and reliable performance make it a valuable tool for conducting waterproof tests on a wide range of products.

Overall, the IPX3-4 Rain Spray Test Equipment is an essential testing instrument for evaluating the waterproof capabilities of products exposed to rain and splash water. With its IPX3 and IPX4 rating, user-friendly controller, and versatile applications, this equipment provides accurate and consistent results for manufacturers seeking to enhance the water resistance of their products.

Details:

Water Inlet and overflow

Outlet

Features:

Product Name: IPX3-4 Rain Spray Test Equipment
Ip Code: IPX3 IPX4
Operation Scenarios: Rain, Splash Water
Spray Method: Side Spray
Working Scenarios: Rain, Splash Water
Viewing Window: Tempered Glass

Technical Parameters:

Working Scenarios	Rain, Splash Water
Spray Method	Side Spray
Applied Scenarios	Rain, Splash Water
Service Environment	Rain, Splash Water
Ip Rating	IPX3-4
Viewing Window	Tempered Glass
Power Supply	220V/50Hz
Test Method	Spray Nozzle
Ip Code	IPX3 IPX4
Operation Scenarios	Rain, Splash Water

Applications:

YueXin IPX3-4 Water Spraying Test Device is a reliable and efficient product designed for various product testing applications. Originating from Guangdong, China, this equipment comes with CE Certification, ensuring its quality and performance standards meet international requirements.

The IPX3-4 Waterproof Test Equipment is suitable for a wide range of experimental scenarios, including rain and splash water testing. Its viewing window is made of tempered glass, providing a clear view during the testing process.

Whether you need to simulate rain or splash water conditions, this test device from YueXin is the ideal choice. It can operate seamlessly in rain and splash water environments, making it versatile for different testing needs.

When it comes to the application occasions, this equipment can be used in various settings such as laboratories, research facilities, manufacturing plants, and quality control departments. Its rugged construction and reliable performance make it a valuable asset for ensuring product durability and reliability.

The IPX3-4 Water Spraying Test Device offers a minimum order quantity of 1 piece, with a price range starting from USD 20,000 to USD 50,000 per piece. The packaging details include a wooden box package for safe transportation and delivery.

With a delivery time of 30-45 days and payment terms of T/T, customers can expect a smooth and convenient purchasing process. The supply ability of over 100 pieces per month ensures that orders can be fulfilled promptly and efficiently.

Support and Services:

The Product Technical Support and Services for the IPX3-4 Rain Spray Test Equipment include assistance with setting up and calibrating the equipment, troubleshooting any issues that may arise during testing, providing guidance on interpreting test results, and offering maintenance and repair services. Our team of experts is dedicated to ensuring that your rain spray testing requirements are met efficiently and effectively.

FAQ:

- Q: What is the brand name of the Rain Spray Test Equipment?**
A: The brand name of the rain spray test equipment is YueXin.
- Q: Where is the Rain Spray Test Equipment manufactured?**
A: The Rain Spray Test Equipment is manufactured in Guangdong, China.
- Q: What certification does the Rain Spray Test Equipment have?**
A: The Rain Spray Test Equipment has CE Certification.
- Q: What is the minimum order quantity for the Rain Spray Test Equipment?**
A: The minimum order quantity for the Rain Spray Test Equipment is 1 piece.
- Q: What are the packaging details for the Rain Spray Test Equipment?**
A: The Rain Spray Test Equipment is packaged in wooden box packages.
