

IPX3-4 Water Spraying Test Device for Rain and Splash Water Endurance Testing

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34AT-04
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

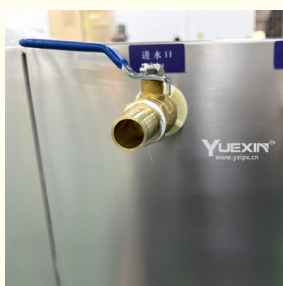

Product Specification

- Controller: 7-inch PLC Touch Screen
- Spray Method: Side Spray
- Applied Scenarios: Rain、 Splash Water
- Ip Rating: IPX3-4
- Ip Code: IPX3 IPX4
- Working Scenarios: Rain、 Splash Water
- Viewing Window: Tempered Glass
- Operation Scenarios: Rain、 Splash Water
- Highlight: **IPX3-4 Water Spraying Test Device, IPX3-4 Rain Spray Test Device, Splash Water Endurance Testing Device**

Product Description

IPX3-4 Water Spraying Test Device for Harsh Environments

Product Description:

The IPX3-4 Rain Spray Test Equipment is a high-quality testing device designed for assessing the ingress protection of products against rain and splash water according to IPX3 and IPX4 standards. This advanced equipment operates on a power supply of 220V/50Hz, ensuring reliable and consistent performance.

Featuring the capability to simulate rain and splash water scenarios, the IPX3-4 Rain Spray Test Equipment is a versatile testing solution suitable for a wide range of industries and applications. It is commonly used in product testing laboratories, quality control departments, and research facilities to evaluate the resistance of products to water ingress under various conditions.

The viewing window of the IPX3-4 Rain Spray Test Equipment is made of tempered glass, providing a clear view of the testing process while ensuring the safety of operators. This transparent window allows users to monitor the test specimen during testing, ensuring accurate observations and data collection.

With its IPX3-4 rating, this testing device is capable of conducting rigorous raindrop spray tests to assess the waterproof performance of products. It is an essential tool for manufacturers, designers, and engineers seeking to validate the reliability and durability of their products in challenging environmental conditions.

Key Features of the IPX3-4 Rain Spray Test Equipment:

IP Rating: IPX3-4

IP Code: IPX3 IPX4

Power Supply: 220V/50Hz

Applied Scenarios: Rain, Splash Water

Viewing Window: Tempered Glass

Overall, the IPX3-4 Rain Spray Test Equipment is a reliable and efficient solution for conducting rainproof tests and water ingress evaluations. Its robust construction, precise controls, and user-friendly design make it an indispensable tool for ensuring product quality and compliance with industry standards.

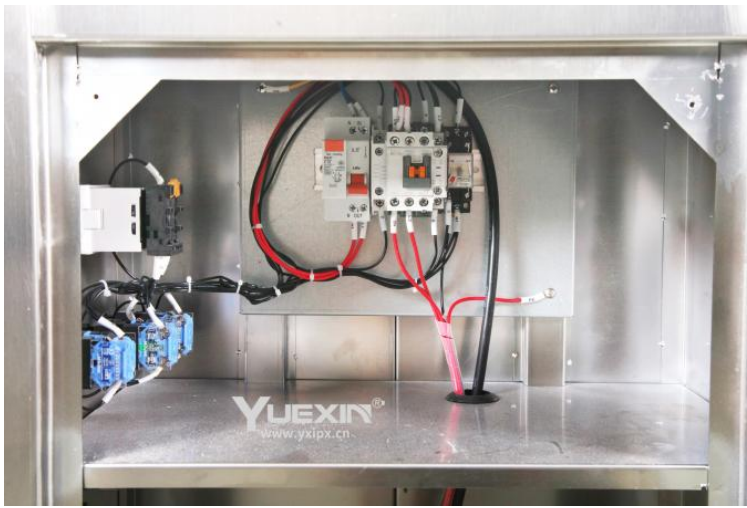

Whether you are testing electronic devices, outdoor equipment, lighting fixtures, or automotive components, the IPX3-4 Rain Spray Test Equipment offers the performance and accuracy you need to validate the waterproof capabilities of your products effectively.

Invest in the IPX3-4 Rain Spray Test Equipment today to enhance the reliability and durability of your products, meet regulatory requirements, and exceed customer expectations for waterproof performance.

Details:

Filter

Circuit

Features:

Product Name: IPX3-4 Rain Spray Test Equipment
Service Environment: Rain, Splash Water
Applied Scenarios: Rain, Splash Water
Name Of Commodity: Rain Spray Test Equipment
IP Code: IPX3 IPX4
Experimental Scenarios: Rain / Splash Water

Technical Parameters:

Power Supply	220V/50Hz
Ip Rating	IPX3-4
Ip Code	IPX3 IPX4
Applied Scenarios	Rain, Splash Water
Spray Method	Side Spray
Experimental Scenarios	Rain / Splash Water
Operation Scenarios	Rain, Splash Water
Name Of Commodity	Rain Spray Test Equipment
Service Environment	Rain, Splash Water
Working Scenarios	Rain, Splash Water

Applications:

The IPX3-4 Rain Spray Test Equipment by YueXin is a versatile product designed for a wide range of applications and scenarios. With its robust design and reliable performance, this IPX3-4 Drip Box Test Instrument is suitable for various industries and settings.

Brand Name: YueXin
Place Of Origin: Guangdong, China
Certification: CE Certification
Minimum Order Quantity: 1 Pcs
Price: USD 20000-50000+pcs
Packaging Details: Wooden Box Package
Delivery Time: 30-45 Days
Payment Terms: T/T
Supply Ability: 100+pcs+30
Operation Scenarios: Rain, Splash Water
Service Environment: Rain, Splash Water
Spray Method: Side Spray
Viewing Window: Tempered Glass
Controller: 7-inch PLC Touch Screen

The IPX3-4 Water Spray Test Equipment is ideal for testing the water resistance of various products in different environments. Whether simulating rain or splash water conditions, this IPX3-4 Splashproof Test Apparatus provides accurate results for product evaluation.

Support and Services:

The IPX3-4 Rain Spray Test Equipment is designed to provide comprehensive testing for ingress protection ratings. Our product technical support team is available to assist with any inquiries regarding the operation, maintenance, and troubleshooting of the equipment.

Additionally, we offer a range of services including installation support, calibration, and training to ensure optimal performance and accurate results.

FAQ:

1. What is the brand name of the IPX3-4 Rain Spray Test Equipment?

Answer: The brand name is YueXin.

2. Where is the IPX3-4 Rain Spray Test Equipment manufactured?

Answer: The equipment is manufactured in Guangdong, China.

3. Does the IPX3-4 Rain Spray Test Equipment have any certification?

Answer: Yes, the equipment has CE Certification.

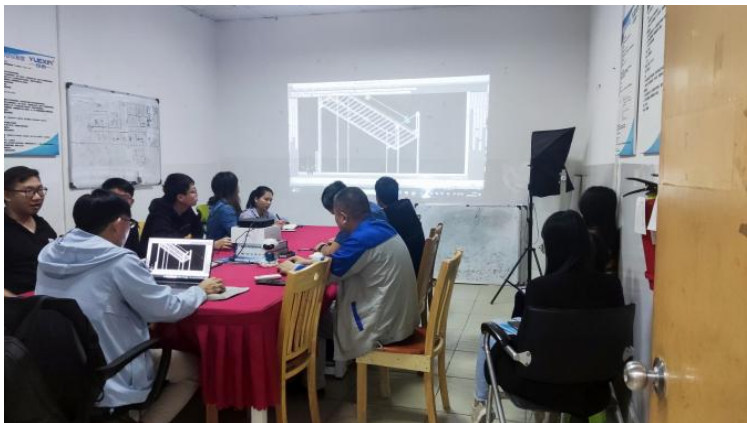

4. What is the minimum order quantity for the IPX3-4 Rain Spray Test Equipment?

Answer: The minimum order quantity is 1 piece.

5. What are the packaging details for the IPX3-4 Rain Spray Test Equipment?

Answer: The equipment is packaged in a wooden box package.
