

## IPX3-4 Rain Spray Test Equipment with Tempered Glass Viewing Window

### Basic Information

- Brand Name: YueXin
- Certification: CE Certification
- Model Number: YX-IPX34B-R200
- Minimum Order Quantity: 1 Pcs
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Controller: 7-inch PLC Touch Screen
- Operation Scenarios: Rain、 Splash Water
- Applied Scenarios: Rain、 Splash Water
- Power Supply: 220V/50Hz
- Ip Code: IPX3 IPX4
- Name Of Commodity: Rain Spray Test Equipment
- Spray Method: Side Spray
- Test Method: Spray Nozzle
- Highlight: IPX3-4 Rain Spray Test Equipment, Touch Screen Rain Spray Test Equipment

## Product Description

### 220V/50Hz Power Supply IPX3-4 Rain Spray Test Equipment

#### Product Description:

The IPX3-4 Rain Spray Test Equipment is a versatile testing apparatus designed to evaluate the water resistance of products in various scenarios such as rain and splash water. With a power supply of 220V/50Hz, this equipment is suitable for testing products that need to withstand water ingress in real-world conditions.

One of the key features of the IPX3-4 Rain Spray Test Equipment is its ability to simulate rain and splash water scenarios effectively. This makes it an ideal choice for conducting IPX3-4 splashproof tests on a wide range of products. Whether you need to test electronic devices, outdoor equipment, or automotive components, this equipment provides reliable and accurate results.

The test method employed by the IPX3-4 Rain Spray Test Equipment involves the use of a spray nozzle to deliver water at specified flow rates and pressures. This ensures consistent and repeatable testing conditions, allowing you to assess the water resistance of your products with precision.

With a service environment that includes rain and splash water scenarios, this equipment is well-suited for testing products intended for outdoor use or exposure to water. The IPX3-4 Rain Spray Test Equipment can help you ensure that your products meet the necessary standards for water ingress protection, giving you confidence in their performance and durability.

In working scenarios where rain and splash water are prevalent, the IPX3-4 Rain Spray Test Equipment offers a reliable solution for evaluating the water resistance of your products. Whether you are designing new products or quality testing existing ones, this equipment provides the tools you need to assess their ability to withstand water exposure.

Overall, the IPX3-4 Rain Spray Test Equipment is a valuable tool for conducting IPX3-4 splashproof tests and raindrop spray testing. With its robust design, precise test method, and versatile capabilities, this equipment allows you to evaluate the water resistance of your products with confidence. Invest in the IPX3-4 Water Ingress Test System today and ensure that your products meet the required standards for water resistance.

#### Features:

Product Name: IPX3-4 Rain Spray Test Equipment

Working Scenarios: Rain, Splash Water

Viewing Window: Tempered Glass

Controller: 7-inch PLC Touch Screen

IP Code: IPX3, IPX4

Spray Method: Side Spray

#### Details:

Breathable mesh

Inner box

Technical Parameters:

Operation Scenarios	Rain, Splash Water
Experimental Scenarios	Rain / Splash Water
Power Supply	220V/50Hz
Service Environment	Rain, Splash Water
Working Scenarios	Rain, Splash Water
Ip Code	IPX3 IPX4
Test Method	Spray Nozzle
Spray Method	Side Spray
Ip Rating	IPX3-4
Name Of Commodity	Rain Spray Test Equipment

Applications:

The YueXin IPX3-4 Rain Spray Test Equipment is a top-of-the-line product designed for various product testing scenarios that involve exposure to rain or splash water. With its advanced features and capabilities, this equipment is suitable for a wide range of applications. One of the key attributes of this waterproof test equipment is its IPX3-4 rating, making it ideal for conducting rigorous testing to evaluate the water resistance of products. Whether you need to test the effectiveness of a product in light rain conditions (IPX3) or heavy rain conditions (IPX4), this equipment provides reliable and accurate results.

Manufactured in Guangdong, China, this CE certified product boasts high-quality construction and performance. It comes with a user-friendly 7-inch PLC touch screen controller, allowing for easy operation and monitoring of test parameters. The viewing window of tempered glass ensures clear visibility during testing.

With a minimum order quantity of 1 piece and a price range of USD 20,000 to 50,000 per piece, this IPX3-4 Rain Spray Tester offers great value for your investment. The equipment is packaged in a sturdy wooden box for secure transportation and delivery within 30-45 days.

Payment terms for this splashproof test apparatus are flexible, accepting T/T transactions. Additionally, the supply ability of over 100 pieces per month ensures that you can rely on a consistent availability of this essential testing equipment.

Overall, the YueXin IPX3-4 Rain Spray Test Equipment is a versatile and reliable solution for conducting rain and splash water tests across various industries. Its durability, precision, and user-friendly design make it an indispensable tool for quality assurance and product development.

Support and Services:

The IPX3-4 Rain Spray Test Equipment is designed to provide comprehensive testing for water ingress protection. Our product technical support team is dedicated to assisting customers with any inquiries related to the operation, maintenance, and troubleshooting of the equipment.

Our services include:

- Installation guidance for proper setup
- Training sessions for effective use
- Technical troubleshooting support
- Regular maintenance and calibration services

About us:

## FAQ:

- Q: What is the brand name of the Rain Spray Test Equipment?
- A: The brand name of the Rain Spray Test Equipment is YueXin.
- Q: Where is the Rain Spray Test Equipment manufactured?
- A: The Rain Spray Test Equipment is manufactured in Guangdong, China.
- Q: What certification does the Rain Spray Test Equipment have?
- A: The Rain Spray Test Equipment has CE Certification.
- Q: What is the minimum order quantity for the Rain Spray Test Equipment?
- A: The minimum order quantity for the Rain Spray Test Equipment is 1 piece.
- Q: What are the packaging details for the Rain Spray Test Equipment?
- A: The Rain Spray Test Equipment is packaged in wooden box packages.
- Q: What is the delivery time for the Rain Spray Test Equipment?
- A: The delivery time for the Rain Spray Test Equipment is 30-45 days.
- Q: What are the payment terms accepted for the Rain Spray Test Equipment?
- A: The payment terms accepted for the Rain Spray Test Equipment are T/T.
- Q: What is the supply ability of the Rain Spray Test Equipment?
- A: The supply ability of the Rain Spray Test Equipment is 100+ pieces per month.
