

1-2 Mm/min Drip Volume IPX1-2 Water Dripping Proof Tester for Drip Resistance Test

Our Product Introduction

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Features: Waterproof Test
- Material: Stainless Steel
- Test Chamber Material: Stainless Steel
- Drip Distance: 200 Mm
- Protection Level: IPX1-2
- Rotating Speed: 1-5 Rounds Per Minute
- Test Time: 10 Minutes
- Test Method: Drip Test
- Highlight: **IPX1-2 water drip tester, drip resistance test equipment, 1-2 mm/min drip volume tester**

Product Description

1-2 Mm/min Drip Volume IPX1-2 Water Dripping Proof Tester for Drip Resistance Test

Product Attributes

Attribute	Value
Material	Stainless Steel
Test Chamber Material	Stainless Steel
Features	Waterproof Test
Drip Distance	200 Mm
Protection Level	IPX1-2
Rotating Speed	1-5 Rounds Per Minute
Test Time	10 Minutes
Test Method	Drip Test

Product Description

The IPX1-2 Water Dripping Proof Tester is an essential tool for testing the water resistance of various products. This IPX1-2 Waterproof Drip Testing Machine is designed to perform the IPX1-2 Rainfall Test to ensure the products' durability under water exposure.

With a test time of 10 minutes, the IPX1-2 Water Drip Test Equipment efficiently evaluates the product's waterproof capabilities. The test method employed is the Drip Test, where water is dripped onto the product at a rate of 1-2 mm/min to simulate real-life water exposure.

The IP Grade of this equipment is IPX1-2, indicating its suitability for testing products against water drips and light rain conditions. Its features include a waterproof test function that accurately assesses the product's ability to withstand water ingress.

In summary, the IPX1-2 Water Drip Test Equipment is a reliable and efficient solution for conducting waterproof tests on various products. With its precise drip volume control and IPX1-2 rating, this equipment ensures that products meet the necessary waterproof standards for consumer safety and satisfaction.

Features

Product Name: IPX1-2 Water Drip Test Equipment

Drip Distance: 200 Mm

IP Grade: IPX12

Test Method: Drip Test

Drip Volume: 1-2 Mm/min

Protection Level: IPX1-2

Technical Parameters

Rotating Speed	1-5 Rounds Per Minute
Drip Distance	200 Mm
Features	Waterproof Test
Display	Touch Screen
IP Grade	IPX12
Material	Stainless Steel
Test Method	Drip Test
Test Chamber Material	Stainless Steel
Test Time	10 Minutes
Drip Volume	1-2 Mm/min

Applications

The YUEXIN IPX1-2 Rain Drip Test Equipment is a versatile and reliable testing machine designed for waterproof testing in various scenarios. With certifications including ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017, this equipment guarantees high-quality performance and accuracy.

Whether you are in the electronics industry, automotive sector, or manufacturing field, this IPX1-2 Waterproof Drip Testing Machine is suitable for a wide range of product application occasions. It can be used to test the water resistance of electronic devices, automotive components, outdoor equipment, and more.

The minimum order quantity for this equipment is just 1 piece, making it accessible for businesses of all sizes. Priced at USD 20000-50000 per piece, the investment in this testing machine offers long-term value and peace of mind.

Packaged in a sturdy wooden box, the equipment is well-protected during shipping and storage. With a delivery time of 30-45 days, you can quickly integrate this IPX1-2 Rain Drip Test Equipment into your testing processes.

Payment terms for this machine are flexible, accepting T/T for ease of transaction. With a supply ability of 100+ pieces per month, you can rely on a consistent source of waterproof testing equipment.

Equipped with a user-friendly touch screen display, operating the machine is intuitive and efficient. The drip distance of 200mm and rotating speed of 1-5 rounds per minute ensure accurate and thorough testing results.

Don't compromise on the quality of your products - invest in the YUEXIN IPX1-2 Rain Drip Test Equipment for reliable and effective waterproof testing in various scenarios.
