

## Waterproof Test IPX1-2 Moisture Ingress Test System Protection Level for Performance

Our Product Introduction

for more products please visit us on [raintestchambers.com](http://raintestchambers.com)

### Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

### Product Specification

- Features: Waterproof Test
- Test Chamber Material: Stainless Steel
- Display: Touch Screen
- Protection Level: IPX1-2
- Test Time: 10 Minutes
- Rotating Speed: 1-5 Rounds Per Minute
- Material: Stainless Steel
- Drip Distance: 200 Mm
- Highlight: **IPX1-2 waterproof test system, moisture ingress test equipment, IPX1-2 water drip tester**

## Product Description

### Waterproof Test IPX1-2 Moisture Ingress Test System Protection Level for Performance

#### Product Specifications

Attribute	Value
Test Chamber Material	Stainless Steel
Display	Touch Screen
Protection Level	IPX1-2
Test Time	10 Minutes
Rotating Speed	1-5 Rounds Per Minute
Material	Stainless Steel
Features	Waterproof Test
Drip Distance	200 Mm

#### Product Description

The **IPX1-2 Water Drip Test Equipment** is a cutting-edge device designed for conducting IPX1-2 Drip Protection Tests. With an IP Grade of IPX12, this equipment is built to withstand water ingress to ensure the durability and reliability of products under test.

Utilizing the Drip Test method, this IPX1-2 Waterproof Drip Testing Machine subjects products to simulated rainfall conditions to evaluate their resistance to water penetration. The test is conducted for a duration of 10 minutes, allowing for a comprehensive assessment of the product's waterproof capabilities.

The IPX1-2 Rainfall Test Equipment features a variable rotating speed, with the ability to adjust between 1 to 5 rounds per minute. This flexibility enables users to customize the testing conditions based on the specific requirements of the product being evaluated, ensuring accurate and reliable results.

Designed for ease of use and accuracy, the IPX1-2 Water Drip Test Equipment is an essential tool for manufacturers, quality control professionals, and researchers seeking to validate the waterproof performance of their products.

#### Key Features

- Product Name: IPX1-2 Water Drip Test Equipment
- Test Method: Drip Test
- Rotating Speed: 1-5 Rounds Per Minute
- Display: Touch Screen
- Test Time: 10 Minutes
- Material: Stainless Steel

#### Technical Parameters

Parameter	Value
Test Time	10 Minutes
Rotating Speed	1-5 Rounds Per Minute
IP Grade	IPX12
Protection Level	IPX1-2
Display	Touch Screen
Test Chamber Material	Stainless Steel

Drip Volume	1-2 Mm/min
Material	Stainless Steel
Features	Waterproof Test
Test Method	Drip Test

## Applications

The **IPX1-2 Water Dripping Proof Tester** is ideal for a wide range of applications and scenarios. It is suitable for industries requiring water resistance assessment tools, such as electronics, automotive, aerospace, and more.

With a minimum order quantity of just 1 piece and a price range of USD 20,000 to 50,000 per piece, this equipment offers flexibility for both small and large-scale testing needs. Packaged in a sturdy wooden box package, the IPX1-2 Dripping Test Apparatus guarantees safe delivery to your location.

The delivery time of 30-45 days and payment terms of T/T make the purchasing process convenient and efficient for customers. The IPX1-2 Water Drip Test Equipment features a user-friendly touch screen display, allowing for easy operation and monitoring during the testing process.

With a test time of 10 minutes and a drip volume of 1-2 mm/min, this equipment provides accurate and consistent results for assessing the protection level of products. Backed by a supply ability of 100+ pieces per month, the IPX1-2 Water Resistance Assessment Tool ensures a steady availability for your testing requirements.
