

Waterproof Test Features in IPX1-2 Water Immersion Test Apparatus with Touch Screen Display

Our Product Introduction

for more products please visit us on raintestchambers.com

Basic Information

- Brand Name: YUEXIN
- Certification: ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, VW 80000:2017
- Minimum Order Quantity: 1 Piece
- Price: Usd+20000-50000+pcs
- Packaging Details: Wooden Box Package
- Delivery Time: 30-45 Days
- Payment Terms: T/T
- Supply Ability: 100+pcs+30

Product Specification

- Features: Waterproof Test
- Test Time: 10 Minutes
- Rotating Speed: 1-5 Rounds Per Minute
- Drip Volume: 1-2 Mm/min
- Drip Distance: 200 Mm
- Test Chamber Material: Stainless Steel
- Test Method: Drip Test
- Protection Level: IPX1-2
- Highlight: **IPX1-2 waterproof test apparatus, water immersion test equipment with touch screen, IPX1-2 water drip test machine**

Product Description

Waterproof Test Features in IPX1-2 Water Immersion Test Apparatus with Touch Screen Display

Product Specifications

Attribute	Value
Test Time	10 Minutes
Rotating Speed	1-5 Rounds Per Minute
Drip Volume	1-2 Mm/min
Drip Distance	200 Mm
Test Chamber Material	Stainless Steel
Test Method	Drip Test
Protection Level	IPX1-2
Features	Waterproof Test

Product Overview

The IPX1-2 Waterproof Drip Testing Machine is a state-of-the-art equipment designed for conducting water drip tests to assess the waterproof capabilities of various products. This advanced testing machine simulates environmental conditions where water drips on tested products, evaluating their performance under such circumstances.

Constructed with high-quality stainless steel material, both the equipment and test chamber offer durability and reliability for consistent testing results. The stainless steel construction provides sturdiness and corrosion resistance, making it a long-lasting investment for your testing needs.

The IPX1-2 Waterproof Drip Testing Machine is specifically designed to test products according to the IPX1-2 protection level standards, capable of evaluating ingress protection against water drips from vertical and 15-degree angles.

Key Features

- **Product Name:** IPX1-2 Water Drip Test Equipment
- **Display:** Touch Screen
- **Test Time:** 10 Minutes
- **Material:** Stainless Steel
- **Test Chamber Material:** Stainless Steel
- **Protection Level:** IPX1-2

Technical Parameters

Display	Touch Screen
Test Method	Drip Test
Material	Stainless Steel
Features	Waterproof Test
Rotating Speed	1-5 Rounds Per Minute

IP Grade	IPX12
Test Time	10 Minutes
Drip Distance	200 Mm
Drip Volume	1-2 Mm/min
Protection Level	IPX1-2

Applications

The YUEXIN IPX1-2 Water Drip Test Equipment is a versatile product designed to assess water resistance of products, making it essential for industries where waterproofing is crucial. Certified to ISO 20653:2013, DIN 40050-9:1993, IEC60529:2013, and VW 80000:2017 standards, it meets international requirements for water ingress testing.

With a minimum order quantity of 1 piece and competitive pricing (USD 20,000-50,000 per piece), this equipment is packaged securely in wooden boxes for safe transportation, with a delivery time of 30-45 days. Payment terms are flexible with T/T accepted, and supply capability exceeds 100 pieces within 30 days.
